

Welcome to the Where To Go Camping Guide

published by
Kuskitanee Lodge 168
Moraine Trails Council#500

We have tried to develop a web-based guide to outdoor activities in our area. We drew a rough circle about 100 miles in radius around Butler, PA and tried to find as many national, state, local and Boy Scout locations as we could. We have provided hyperlinks to web pages and interactive maps showing the locations of various places. We have written supporting document files with more detail about the various places we have found. The icons on the maps are numbered so you can cross reference between the map and the description.

We hope you find this to be helpful. Please let us know if you find any mistakes or if you know of places we missed! You can email comments to Craig Spink at alchemist@wowoatam.com.

I would like to thank the past authors of the Kuskitanee Lodge Where to go camping guide (Dan Brown and Bill Wittmer) and the authors of the [2007 Monaken where to go camping guide](#) for helping me get ideas and content. I learned about the interactive maps from the [central region venturing page](#) and from various [online tutorial](#) pages.

Enjoy the guide and please help us make it better with your comments!
